Introduction

Choosing teaching as a profession can lead to a very satisfying career. The program of study for all music education students includes coursework in a music department accredited by the National Association of Schools or Music (NASM) and all state-mandated requirements in Iowa, which are enacted/required by the University Educator Preparation Program at Iowa State. This handbook will help you navigate the path to being successful in the Music Education Program and to a successful career as a music teacher.

Observation Requirement

As required by the State of Iowa, all students in education music complete a minimum of 80 hours of observation prior to the student teaching term. Music students take Music 280K for .5 credits and Music 480K for 3 credits to receive credit for 84 hours of observing music teaching of school age students as follows:

Notes

- Students must have an Iowa criminal background check prior to taking Music 266 in order to observe students in the schools. See Admission to Teacher Ed.
- A minimum of 12 hours must be earned prior to admittance into the Educator Preparation Program. An additional 72 hours can be credited after admittance.
- These practica are required – regardless of the number of hours already observed.
- You must be accepted into the University Educator Preparation Program in order to enroll in Music 366 and to Practicum I (Music 480K).

The intent of the observation hours is to become acquainted with the K-12 music education program and to prepare for student teaching at the elementary and secondary levels. While taking Music 266, students gain a minimum of 12 hours of observation. During the junior and senior years, students participate in three practicum experiences, each one with a minimum of 24 observation hours. The settings for the three practica, which are arranged by Dr. Royston, will differ in area (general music, band, orchestra, and choir) in order to gain experience for student teaching. In addition to music classes and ensemble rehearsals, you should include the following: concerts, administrative meetings, festivals, private lessons, solo & ensemble contest, special education classes, musicals, etc. Several other music education classes require observations of music teaching: those hours are in addition to the requirements for 266, 366, and 466.

Students must receive permission to observe in school settings – submit a Practicum Request Form and class schedule to Dr. Royston by the end of the semester BEFORE you desire to have a placement. Meet with Jaime Boeckman during the first week of the semester. Students must allow time in class schedules for practicum experiences (recommended – 3 hour block, minimum 2 hour). Students are responsible for their own transportation.
Portfolio Requirements

See E-Portfolio Information Packet for Music Education

Student Teaching

Application for student teaching will occur at the beginning of the semester prior to student teaching. All criteria for Checkpoint II will be required (see page 5). Student teaching will be a full semester (16 week or 8 +8 week) assignment spent entirely in a K-12 educational setting. A university supervisor will be assigned to observe and give feedback throughout the semester. Placements will be made in based on desires of the student and availability of placements. Students must provide personal transportation as placements may be within 60 miles of the university. All coursework should be completed PRIOR to student teaching. Exceptions will be made only in emergency circumstances.

Teaching License - State of Iowa

Information will be given during Music 466, C&I 426, and in Student Teaching Seminars

Apply:
just prior to beginning of student teaching semester
includes background check ($65.00) and license fee ($85.00) (as of 6/2012)

License Types:
Initial License: first license, good for 2 years, teach in specified area

Substitute License: can be a first license, good for 5 years, teach in any area

Standard License: “permanent” license earned with recommendations by principal after demonstration of success with the State of Iowa Teaching Standards, renewable every 5 years

NAfME Collegiate Chapter 679/ IMEA
National Association for Music Education/ Iowa Music Educators Association

NAfME is the only arts education organization that addresses all aspects of music education. Through membership of more than 75,000 active, retired, and pre-service music teachers, NAfME serves millions of students nationwide through activities at all teaching levels, from preschool to graduate school. Since 1907, NAfME has worked to ensure that every student has access to a well-balanced, comprehensive, and high-quality program of music instruction taught by qualified teachers. NAfME’s activities and resources have been largely responsible for the establishment of music education as a profession, for the promotion and guidance of music study as an integral part of the school curriculum, and for the development of the National Standards for Arts Education.

**Purpose:**
The purpose of NAfME Collegiate is to afford students an opportunity for professional orientation and development while still in school, and to enable students to gain an understanding of:
- The philosophy and function of the music education profession
- The professional interests of members involved in the local, state, division, and national levels
- The music industry’s role in support of music education
- The knowledge and practices of the professional music educator as facilitated through chapter activity

**Membership:**
Membership in the national and state organizations is reciprocal. Current student membership is $40 ($32 for state and national dues; $8 for chapter dues) for a school year.

**Eligibility:**
Students who are enrolled in an institution of higher education, who are interested in music education, and who are not employed full-time in the field of music education are eligible for Collegiate membership.

**Benefits:**
- Leadership Opportunities: The local chapter will hold elections for officers on a yearly basis. This organization will be largely student run with the help of the faculty advisor.
- Conferences: discounted registration at all conferences state, division, national (IMEA)
- Periodicals: As part of membership, each member receives the *Music Educators Journal* and *Teaching Music*
- Updates: Members can receive regular e-mail updates from NAfME regarding news, updates, and events in music education
- Discounts: Members receive a 25% discount on NAfME resources including publications
- NAfME Online Job Bank: The online Job Center provides a current listing of open positions for all specialties and levels in music education. Members can also post their background information on-line for employers to view.

**Future benefits:** Graduating collegiate members will have the opportunity to receive a regular NAfME membership at a reduced rate their first year of teaching.

Respond professionally to feedback.

Use appropriate written and oral communication (i.e., avoid use of profanity, slang, and communication structures considered to be excessively casual or informal)

Carefully prepare for all lessons/classes for which you are responsible, consulting your cooperating teacher and/or supervisor well ahead of time.

Avoid absences-unless you encounter an emergency situation (e.g., flat tire on the way to site) or have a legitimate illness (e.g., running a high temperature or vomiting). In such cases you need to contact site personnel and your supervisor immediately, as they are planning for your arrival.

Arrive early and leave only after consulting with cooperating teacher unless prearranged.

Maintain a professional relationship with students, parents, cooperating teacher, supervisor, and ISU faculty/staff.

Follow and uphold all school rules, including those regarding drug and alcohol use and sexual harassment, ISU expectations, and legal requirements or obligations.

Demonstrate respect for colleagues, administrators, parents and students and their differing opinions, backgrounds, abilities, and feelings.

Respect the confidentiality of students, colleagues, and parents in written work and in the public arena.

Communicate regularly with your cooperating teacher and supervisor, using them as a resource and contacting them immediately when problems arise.
Professional Appearance

General guidelines for dress and appearance—Teachers, like other professionals, gain respect from their constituents partially though appearance. Therefore, a neat and clean appearance is required at all times. Clothing choices should meet or exceed the standards of your assigned district. All clothing should fit properly (neither too tight nor oversized and sagging) and provide a modest covering (avoid sheer fabrics, plunging necklines, and styles that do not cover mid sections or undergarments).

Specific guidelines (unless stated more stringently by assigned school district):
Grooming—Hair and nails should be clean and neat with attention given to bodily odors. Men must appear clean-shaven, with trimmed beards.

Body Piercings—Other than ears and those with religious significance, body piercings require the approval of the building principal.

Tattoos—Cover them

Footwear—Shoes should be comfortable and clean (e.g., no beach footwear or tattered cross trainers). Sandals can be worn if the district allows this.

Jeans and sweat pants—Jeans of any color are not allowed by ISU standards. Exceptions would be for sanctioned events such as “Casual Friday” or field trips. Sweat pants, yoga pants and loungewear are not considered professional attire. Wearing your best sweat pants is an option only for those teaching physical education (HHP).

Questionable wording Garments containing obscene, offensive or gang-related messages, or references to products that are illegal to minors are generally forbidden for students and therefore apply to you.

Good choices for Men:
Collared shirts tucked in, turtlenecks, sweaters. A few districts expect a shirt and tie.

Khaki pants, corduroy or cotton/permanent press pants worn with belts. NO SHORTS.

Good choices for Women:
Sweaters, collared shirts, turtlenecks/crew necks

Casual skirts (denim is fine here) of adequate length to enable bending over and sitting on the floor when necessary

Khaki pants, cotton or corduroy pants worn with belts NO SHORTS.

I have read and understand the above stated expectations and agree to follow them while completing my field experiences at Iowa State University.

Education and the Internet

Use of the internet in education is multi-faceted: it can be very helpful to you as a teacher and it can lead to the end of your career. Here are a few things to keep in mind while you are a student preparing for the teaching profession. Remember, what may seem to be an “innocent” or “private” and personal experience, may become permanent to everyone.

- Be aware that if you have a Facebook or MySpace account – it is beyond your control. Anyone can put something “out there” about you – in words and with photos – without your permission. Even if you have a privacy setting, things can still happen. And, are you 100% sure that all of your “friends” will be 100% respectful of you? What may seem to be “funny” to one of your friends may not be funny to you when you are applying for a job. Once it’s on the internet – it’s permanent – it’s “out there” somewhere. The same is true for any kind of “record” – if you have a driving violation, shoplifting episode, etc. – even if it you “win” and are told that this has been expunged from your record – it is still “out there” somewhere and can come back to haunt you when the background check is done during the process of applying for a teaching license (even applying for admission to Teacher Education).

- Be aware that many people google or review Facebook/MySpace sites: professors who are selecting graduate students, administrators hiring new teachers, insurance companies determining insurance rates, newspapers doing research for articles, etc. Unless your account has a privacy setting, it can be viewed and used by anyone; even then, you are not completely safe. (One study indicated that 88% of employers go online to check out potential job candidates. And, 46% of them don’t hire someone because of what they saw online.)

- Be aware that teachers have given assignments to students to research a topic using the internet. In one case a music teacher had students research pop music groups. The students began the project at school where the computers have been “blocked” from certain sites. However, the students went home and continued the research on their home computer. One student researching Michael Jackson was led to pornographic sites. The parents were not “amused.” Before the furor increased, the teacher resigned from her teaching position.

- Be aware that when you are a teacher, you must have PERMISSION to post any photo of any student. As a student teacher, you can’t even videotape yourself teaching if any students are in the tape WITHOUT permission.

- Be aware that you have two years to earn a standard teaching license. I recommend that you essentially be “internet free” at school except for e-mail. Your school computer is school property. If you accidentally end up viewing a questionable site, it is a permanent record and can be used against you.

- Be aware that teachers are held to a high standard and are on display at all times. With the increased use of digital photography, once a photo (with you in it) is on the internet, it lasts forever.

- Curtail your use of social networks on the internet – increase social networks in person! This is the opportunity for you to improve your social skills in person, which is how you will be judged in an interview for a teaching position. Make sure you have a privacy setting on your account. Again, “friends” can post something quite “innocently” – without realizing the consequences to you and your profession.

- Set high standards for academic and personal success. Emotional intelligence is equally important to cognitive intelligence.
