Student Teaching Request Form
(Music 466)

• Meet with Dr. Steele to discuss what type of experience you would like ASAP
• Once the student teaching request is made, there is **NO** changing
• **Everyone** in Music 466 fills out the form whether the student teaching will occur in the following Spring or the next Fall term
• It is getting increasingly difficult to secure good practicum and student teaching placements. You have tremendous impact on the relationship we have with music teachers and school districts and our ability to continue to place students in those situations.
• **Do not contact any teacher under any circumstance or try to arrange your own placement.** You can be assured that you **will not teach** in a setting you have arranged.
